# Key Features of myResource

## Loss Reports

Easily access your company's loss runs and analytics to view key claims information, such as incurred losses, loss ratio, experience modification, number of open claims, and paid losses.

With weekly updates, you will have the latest information right at your fingertips.

## Claims Kit

Managing claims is convenient with our online, comprehensive claims kit. You can download, print or order a variety of materials, including forms, posters, risk management references, and advisories.

## Risk Management & Safety Newsletters

Keep your workplace safe and healthy with our Risk Management & Safety Newsletters. Each newsletter focuses on providing you helpful tips and advice for your workplace.

## RMRx Safety Advisor

RMRx Safety Advisor offers a complete toolkit that helps you create and implement a comprehensive safety program for your company.

- Track and trend incidents; Quickly produce OSHA logs.
- Select from over 1,300 safety documents (many available in Spanish).
- Conduct job safety analysis and hazard assessments while tracking results.
- Monitor safety training and certifications across your organization.
- Track your Certificates of Insurance and stay current on all COI requirements.

## Safety Resources & Video Library

Download and customize documents and PowerPoints for your own safety classes and presentations.

Utilize our free safety video lending library with over 500 videos (many available in Spanish).
