The Nurse Triage Hotline

Eliminate Unnecessary Medical Treatment When an Injury Occurs

PEACE OF MIND FOR YOU AND YOUR EMPLOYEES

Give your employees immediate 24/7 access to nurses who specialize in treating workplace injuries. The Nurse Triage Hotline offers sound medical advice, mitigates unnecessary emergency room visits, and helps prevent further injury. Having accurate care intervention right after a workplace injury helps prevent minor injuries from getting worse or turning into a major claim and lost work time.

Within one minute of their call, injured employees speak directly to a nurse who will recommend the type of care needed. Fifteen minutes after the call, you receive a summary of the visit and a claim will be opened, giving both you and your employee peace of mind.

FREE Materials for Your Employees

Tell your employees about the hotline with flyers, stickers, wallet cards, and posters shipped to you for FREE. Visit **materials.icwgroup.com.**

HIGHLIGHTS OF THE NURSE TRIAGE HOTLINE:

- Improves financial performance by mitigating unnecessary emergency room expenses or medical treatment and by minimizing lost work time.
- Gives immediate access to nurses who specialize in treating workplace injuries to help prevent further injury and complications within one minute of calling.
- Easily share pictures of cuts and burns for improved results.
- Saves you time - files the first notice of loss and within 15 minutes emails you a post-visit report.
- Provides peace-of-mind to employees who may feel anxious or uncertain after a non-emergency workplace injury occurs.
- Next-day follow-up call when self-care is recommended.
- Available in both English and Spanish.
- 24/7 access to nurses specializing in workplace injuries.

START USING THE NURSE TRIAGE HOTLINE TODAY!
