Help Online in Snap

While in Snap, it's easy to get online help.

1. Simply click the **Help** icon in the top header area.

2. Select **Online Help** to view topics, search for a particular item or view tutorials.

Getting Started

You can quickly and easily upload submission data from your agency management system directly into Snap to save time, reduce effort and eliminate data entry mistakes. Snap supports three application upload methods.

- Snap's AppReader (for processing ACORD forms)
- Vertaforte, formerly AMS, via TransactNOW
- Applied via IVANS Transformation Station

For additional assistance, or if your agency management system isn't listed, contact your agency's Snap Administrator or your Business Development Underwriter.

Snap Application Reader (AppReader)

AppReader, Snap's built-in form reader, uploads data to Snap straight from ACORD applications created in your agency management system. AppReader works with all agency management system PDF documents. AppReader does not require installation, registration or additional software.

Submissions that don't qualify for Instant Quote - In order to receive a quote, you need to include four years of currently-valued loss runs included with the submission. Once a quote is accepted, coverage can be bound.

Instant Quote submissions - These can receive a quote without four years of currently-valued loss runs, but currently-valued loss runs must be attached to bind coverage.

Uploading an ACORD PDF Form with AppReader

As part of the upload process, Snap automatically attaches the ACORD PDF to the submission record. You can easily view the ACORD attachment at any time by clicking on the **Collaboration** icon.

1. Locate the client record in your agency management system.
2. To attach the ACORD form to your email, open the **ACORD 130 Workers' Comp PDF** application and save it to your desktop. Note: You can skip this step if your agency management system allows you to attach the ACORD PDF to an email without saving it to your desktop.
3. Log into Snap and click **New Submission**.
4. Check the box **Upload from an ACORD Application**.
5. Click **Select File to Upload** to browse to the ACORD PDF for upload.
6. Select the ACORD PDF you want to upload and click the **Open** button. The file will upload.
7. Enter a **Needed By Date**, if desired.
8. Click **Create Application**.
 - Depending on the number of pages in the ACORD application, the upload could take two to three minutes.
 - While the upload processes, you can start another upload or complete other work in Snap.
9. Once completed, click **Yes** to open and finish the submission, or click **No** to remain on the page and continue working.
10. To complete the submission in Snap, complete all required fields. (See www.icwgroup.com/snap, Snap Producer Guide for details.)
11. Attach four years of currently-valued loss runs. (See www.icwgroup.com/snap, Snap Producer Guide, Attaching Loss Runs for details.)
12. Click **Submit** to submit the application for consideration.

Uploading with TransactNOW

Before uploading applications with TransactNOW, ensure your system has been correctly set up to integrate with Snap.

Submissions that don't qualify for Instant Quote - In order to receive a quote, you need to include four years of currently-valued loss runs included with the submission. Once a quote is accepted, coverage can be bound.

Instant Quote submissions - These can receive a quote without four years of currently-valued loss runs, but currently-valued loss runs must be attached to bind coverage.
